## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE	APR	<p>The housing market continues to struggle with low inventory and rising prices. Sales of new single-family homes fell 5.9% in May to 769,000, according to estimates released by the U.S. Census Bureau and the Department of Housing and Urban Development. That compares with April's revised rate of 817,000 but is 9.2% above the May 2020 estimate of 704,000. The median price of a new home, meanwhile, rose to \$374,400. The report follows one on existing homes released by the National Association of Realtors, which showed they fell 0.9% in May to an annual rate of 5.8 million units, marking the fourth straight monthly decline. Ruben Gonzalez, chief economist at Keller Williams, said the recent sharp drop in lumber prices could augur well for homebuilders in the second half of the year. "The fall in lumber prices was good news across the housing industry and we have hopefully moved past peak lumber prices and builders will be able to feel more confident putting product on the market with less uncertainty about costs," Gonzalez said. "Right now, we view shortage of housing inventory as the primary limiting factor for home sales as we start looking forward to the second half of the year." Source: Tim Smart U.S. News and World Report</p>

## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
<b>CONV</b>	<b>RATE</b>	<b>APR</b>	<p>The housing market continues to struggle with low inventory and rising prices. Sales of new single-family homes fell 5.9% in May to 769,000, according to estimates released by the U.S. Census Bureau and the Department of Housing and Urban Development. That compares with April's revised rate of 817,000 but is 9.2% above the May 2020 estimate of 704,000. The median price of a new home, meanwhile, rose to \$374,400. The report follows one on existing homes released by the National Association of Realtors, which showed they fell 0.9% in May to an annual rate of 5.8 million units, marking the fourth straight monthly decline. Ruben Gonzalez, chief economist at Keller Williams, said the recent sharp drop in lumber prices could augur well for homebuilders in the second half of the year. "The fall in lumber prices was good news across the housing industry and we have hopefully moved past peak lumber prices and builders will be able to feel more confident putting product on the market with less uncertainty about costs," Gonzalez said. "Right now, we view shortage of housing inventory as the primary limiting factor for home sales as we start looking forward to the second half of the year." ## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
<b>CONV</b>	<b>RATE</b>	<b>APR</b>	<p>The housing market continues to struggle with low inventory and rising prices. Sales of new single-family homes fell 5.9% in May to 769,000, according to estimates released by the U.S. Census Bureau and the Department of Housing and Urban Development. That compares with April's revised rate of 817,000 but is 9.2% above the May 2020 estimate of 704,000. The median price of a new home, meanwhile, rose to \$374,400. The report follows one on existing homes released by the National Association of Realtors, which showed they fell 0.9% in May to an annual rate of 5.8 million units, marking the fourth straight monthly decline. Ruben Gonzalez, chief economist at Keller Williams, said the recent sharp drop in lumber prices could augur well for homebuilders in the second half of the year. "The fall in lumber prices was good news across the housing industry and we have hopefully moved past peak lumber prices and builders will be able to feel more confident putting product on the market with less uncertainty about costs," Gonzalez said. "Right now, we view shortage of housing inventory as the primary limiting factor for home sales as we start looking forward to the second half of the year." Source: Tim Smart U.S. News and World Report</p>
<b>FHA</b>	<b>2.81%</b>	<b>3.54%</b>	
	<b>2.25%</b>	<b>2.91%</b>
