## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE	APR	<p>To date, higher rates have left the biggest mark on the housing market. The 30-year fixed mortgage rate shot higher last week, reaching 6.7% on Thursday, which marks the highest rate since 2000. Higher mortgage rates continue to have the expected effect on housing activity, and the jump higher in September will weigh on incoming sales. That said, the interest sensitivity of buyers is evident in the near-30% jump in new home sales for August. Lower rates at the end of July and into August helped temporarily spur activity and move buyers forward with a purchase, as did incentives from builders. While we view this as a temporary gain, it is evidence that despite the recent housing correction underlying home buying demand remains strong and worsening affordability is the major factor holding back prospective buyers. This may improve somewhat even in the face of higher rates if home prices continue to roll over. Last week brought the first decline in home prices since March 2012, according to the S&amp;P CoreLogic Case-Shiller Index. Source: Wells Fargo Bank Weekly Economic &amp; Financial Commentary</p>

## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
<b>CONV</b>	<b>RATE</b>	<b>APR</b>	<p>To date, higher rates have left the biggest mark on the housing market. The 30-year fixed mortgage rate shot higher last week, reaching 6.7% on Thursday, which marks the highest rate since 2000. Higher mortgage rates continue to have the expected effect on housing activity, and the jump higher in September will weigh on incoming sales. That said, the interest sensitivity of buyers is evident in the near-30% jump in new home sales for August. Lower rates at the end of July and into August helped temporarily spur activity and move buyers forward with a purchase, as did incentives from builders. While we view this as a temporary gain, it is evidence that despite the recent housing correction underlying home buying demand remains strong and worsening affordability is the major factor holding back prospective buyers. This may improve somewhat even in the face of higher rates if home prices continue to roll over. Last week brought the first decline in home prices since March 2012, according to the S&amp;P CoreLogic Case-Shiller Index. Source: Wells Fargo Bank Weekly Economic &amp; Financial Commentary</p>
<b>FHA</b>	<b>6.35%</b>	<b>6.58%</b>	
	<b>5.50%</b>	<b>5.66%</b>	
<b>10 Yr Yield</b>	<b>3.65%</b>

## WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE	APR	To date, higher rates have left the biggest mark on the housing market. The 30-year fixed mortgage rate shot higher last week, reaching 6.7% on Thursday, which marks the highest rate since 2000. Higher mortgage rates continue to have the expected effect on housing activity, and the jump higher in September will weigh on incoming sales. That said, the interest sensitivity of buyers is evident in the near-30% jump in new home sales for August. Lower rates at the end of July and into August helped temporarily spur activity and move buyers forward with a purchase, as did incentives from builders. While we view this as a temporary gain, it is evidence that despite the recent housing correction underlying home buying demand remains strong and worsening affordability is the major factor holding back prospective buyers. This may improve somewhat even in the face of higher rates if home prices continue to roll over. Last week brought the first decline in home prices since March 2012, according to the S&P CoreLogic Case-Shiller Index. Source: Wells Fargo Bank Weekly Economic & Financial Commentary
