WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE 6.88%	APR 6.97%	
FHA	5.99%	6.91%	
10 Yr Yield	4.24%		Residential investment is unlikely to match the rise in equipment outlays. The housing market continues to be constrained, with March data demonstrating a slow start to the spring selling season. Existing home sales dropped 5.9% in March to a 4.02M-unit pace, the slowest since January 2024. Still-high mortgage rates and broad uncertainty in the economy have led to a softening in the resale market. Affordability challenges for buyers are also being pressured by rising home prices, creating a significant obstacle in the market. The pace of resales remains stuck 23% below the pre-pandemic rate in March 2019. By comparison, new home sales were a bright spot in March, jumping 7.4% to a 724K-unit pace, the highest level in six months. However, strength in the new homes market is heavily concentrated in the South, and the pace of activity has moved lower over the year in the Northeast, Midwest and West. Looking ahead, the recent bounce in mortgage rates, uncertainty regarding trade policy and dimming economic growth prospects stand to be formidable headwinds. Overall, continued uncertainty remains a theme across the economy at large, but it has yet to significantly affect much of the hard economic data thus far. WEEKLY FINANCIAL NEWS

Financing		Market Commentary
CONV	RATE 6.88%	APR 6.97%
FHA	5.99%	6.91%
10 Yr Yield	4.24%	Residential investment is unlikely to match the rise in equipment outlays. The housing market continues to be constrained, with March data demonstrating a slow start to the spring selling season. Existing home sales dropped 5.9% in March to a 4.02M-unit pace, the slowest since January 2024. Still-high mortgage rates and broad uncertainty in the economy have led to a softening in the resale market. Affordability challenges for buyers are also being pressured by rising home prices, creating a significant obstacle in the market. The pace of resales remains stuck 23% below the pre-pandemic rate in March 2019. By comparison, new home sales were a bright spot in March, jumping 7.4% to a 724K-unit pace, the highest level in six months. However, strength in the new homes market is heavily concentrated in the South, and the pace of activity has moved lower over the year in the Northeast, Midwest and West. Looking ahead, the recent bounce in mortgage rates, uncertainty regarding trade policy and dimming economic growth prospects stand to be formidable headwinds. Overall, continued uncertainty remains a theme across the economy at large, but it has yet to significantly affect much of the hard economic data thus far. CONV	RATE 6.88%	APR 6.97%					
FHA	5.99%	6.91%					
10 Yr Yield	4.24%						
		Residential investment is unlikely to match the rise in equipment outlays. The housing market continues to be constrained, with March data demonstrating a slow start to the spring selling season. Existing home sales dropped 5.9% in March to a 4.02M-unit pace, the slowest since January 2024. Still-high mortgage rates and broad uncertainty in the economy have led to a softening in the resale market. Affordability challenges for buyers are also being pressured by rising home prices, creating a significant obstacle in the market. The pace of resales remains stuck 23% below the pre-pandemic rate in March 2019. By comparison, new home sales were a bright spot in March, jumping 7.4% to a 724K-unit pace, the highest level in six months. However, strength in the new homes market is heavily concentrated in the South, and the pace of activity has moved lower over the year in the Northeast, Midwest and West. Looking ahead, the recent bounce in mortgage rates, uncertainty regarding trade policy and dimming economic growth prospects stand to be formidable headwinds. Overall, continued uncertainty remains a theme across the economy at large, but it has yet to significantly affect much of the hard economic data thus far.
