### WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE 7.00%	APR 7.45%	
FHA	6.75%	7.50%	New home construction unexpectedly rose in October, even as mortgage rates touched the highest levels in over two decades. Housing starts gained 1.9% from the month prior to a seasonally adjusted annual rate of 1.37 million, according to Census data released last Friday. Economists polled by FactSet had expected housing stats at a seasonally adjusted annual rate of 1.35 million. Construction rose for both single-family and large multifamily projects. One-unit building construction increased 0.2%, to a seasonally adjusted annual rate of 970,000. Multifamily starts gained about 5%, to a seasonally-adjusted rate of 382,000. Permits are an indicator of future construction, also increased. The gauge rose 1.1% to a seasonally-adjusted annual rate of 1.49 million. Better times are around the corner for home builders, according to the industry's trade group—even as builder optimism has sagged. Retreating mortgage rates and continued low supply of existing homes for sale are contributing to the more positive outlook. Buyers this year have been squeezed by rising housing costs, with one daily measure of the 30-year fixed rate mortgage having scraped 8% last month for the first time in more than two decades. With rising mortgage rates and high home prices relative to incomes, the housing market hasn't been as unaffordable since the mid-80's, according to ICE Mortgage Technology. ### WEEKLY FINANCIAL NEWS

Financing			Market Commentary
<b>CONV</b>	<b>RATE</b> <b>7.00%</b>	<b>APR</b> <b>7.45%</b>	
<b>FHA</b>	<b>6.75%</b>	<b>7.50%</b>	New home construction unexpectedly rose in October, even as mortgage rates touched the highest levels in over two decades. Housing starts gained 1.9% from the month prior to a seasonally adjusted annual rate of 1.37 million, according to Census data released last Friday. Economists polled by FactSet had expected housing stats at a seasonally adjusted annual rate of 1.35 million. Construction rose for both single-family and large multifamily projects. One-unit building construction increased 0.2%, to a seasonally adjusted annual rate of 970,000. Multifamily starts gained about 5%, to a seasonally-adjusted rate of 382,000. Permits an indicator of future construction, also increased. The gauge rose 1.1% to a seasonally-adjusted annual rate of 1.49 million. Better times are around the corner for home builders, according to the industry's trade group—even as builder optimism has sagged. Retreating mortgage rates and continued low supply of existing homes for sale are contributing to the more positive outlook. Buyers this year have been squeezed by rising housing costs, with one daily measure of the 30-year fixed rate mortgage having scraped 8% last month for the first time in more than two decades. With rising mortgage rates and high home prices relative to incomes, the housing market hasn't been as unaffordable since the mid-80's, according to ICE Mortgage Technology. ### WEEKLY FINANCIAL NEWS

Financing			Market Commentary
CONV	RATE 7.00%	APR 7.45%	
FHA	6.75%	7.50%	New home construction unexpectedly rose in October, even as mortgage rates touched the highest levels in over two decades. Housing starts gained 1.9% from the month prior to a seasonally adjusted annual rate of 1.37 million, according to Census data released last Friday. Economists polled by FactSet had expected housing stats at a seasonally adjusted annual rate of 1.35 million. Construction rose for both single-family and large multifamily projects. One-unit building construction increased 0.2%, to a seasonally adjusted annual rate of 970,000. Multifamily starts gained about 5%, to a seasonally-adjusted rate of 382,000. Permits are an indicator of future construction, also increased. The gauge rose 1.1% to a seasonally-adjusted annual rate of 1.49 million. Better times are around the corner for home builders, according to the industry's trade group—even as builder optimism has sagged. Retreating mortgage rates and continued low supply of existing homes for sale are contributing to the more positive outlook. Buyers this year have been squeezed by rising housing costs, with one daily measure of the 30-year fixed rate mortgage having scraped 8% last month for the first time in more than two decades. With rising mortgage rates and high home prices relative to incomes, the housing market hasn't been as unaffordable since the mid-80's, according to ICE Mortgage Technology.
